

### **GEOGRAPHY/HISTORY:**

We will be looking at different seaside locations in the UK and finding them on a map. We will be investigating the physical and human features of the seaside as well as looking at the oceans of the world. We will also think about seaside holidays in the past and how they are different now.

### **ENGLISH:**

Through out this term we will be focusing on creating our own stories, thinking really hard about the language and vocabulary that we use. We will also be making sure that we always use the correct punctuation. There will be daily guided reading sessions as well as handwriting lessons every morning. We will also be practicing applying our phonics skills to our spelling.

**PSHE:** We will be identifying and talking about our feelings. We will discuss how our feelings can affect our behaviour and how we can manage different feelings. We will be exploring the story of Snap Happy Annie to help our understanding of this.

**RE:** We will begin by thinking about special places and talking about books that are special to us. We will then explore the meaning of sacred. We will look at sacred places including our own church and share sacred texts.

### **SCIENCE:**

We will be looking at different plants, naming them and identifying their structure. We will also be observing how seeds and bulbs grow into plants and what plants need to stay healthy. Our experiments are going to include finding out which part of a runner bean plant appears first and what happens to celery and Ox Eye Daisies when they are placed in pots of different coloured water.

### **ART AND DESIGN/ DT/ MUSIC:**

In art and design, we will be developing a wide range of art and design techniques including using collage, pattern and texture and observational drawing. We will be studying different artists to see how they work and what makes their artwork unique.

In DT we will be working on our sewing skills to create a final, handmade piece.

In music, we will be studying pitch using tuned instruments and our voices. We will be working on practicing and performing our own pitch pattern to accompany a song.

# Class 1

## Termly Overview

### Year 1 and 2

### Summer term 2021

*Live, Love, Learn.*

Please talk to your child at home about their learning in school and encourage them to read at home. Do ask if you have any queries about any of your child's learning.

Many thanks for your ongoing support,  
Miss Whiteley and Miss Bryant

### **MATHS:**

Throughout this term we will be looking at number and place value up to 100. We will apply our skills to multiplication and division as well as fractions. We will use the correct vocabulary to describe both 2D and 3D shapes, including their properties, position and direction. The year will be completed by looking at a variety of measure including, time, money, length, weight and

capacity.

### **PHYSICAL/OUTDOOR EDUCATION:**

During this term we will be mastering basic movements including running, jumping, throwing and catching, as well as developing balance, agility and co-ordination, and begin to apply these in a range of activities. We will also be practicing for sports day.

Please ensure your child's PE kit is kept in school.
