

perseverance

This term, we are learning to display the important Christian value, perseverance. The children have been showing this through their attitudes to learning both at home and at school. We are teaching the children to show resilience and not to give up, even when things are difficult. Perseverance is a great value to start the Spring term – it links with our school vision 'Let us spur one another to acts of love and good deeds'. We are looking for perseverance in action across the school as pupils show they are ready to take on new and exciting challenges in their learning.
